

CHEMICALLY RESISTANT. UNIFORMLY STRONG. INHERENTLY CLEAN.

SIGMA® 600

TOTAL INTEGRITY

FOR THE MOST DEMANDING APPLICATIONS

Closing the gap between yesterday's outdated gasket technology and today's cutting edge solutions is easy with the introduction of, SIGMA® 600, high performance sealing material. Flexitallic has mastered a proprietary manufacturing process

that produces biaxially-orientated **R²PTFE** gasket material. This unique restructuring process requires no filler materials and produces SIGMA 600 gasket material for the ultimate in chemical resistance.

SIGMA®

INNOVATIVE. VERSATILE. COMPLETE.
